<b>Preface</b> .....	<b>v</b>
Who is this book for?.....	v
What do you need?.....	v
What is in this book?.....	vi
Trademark Attributions.....	vi
<b>Contents</b> .....	<b>vii</b>
<b>Chapter 1: Using R+m.PLAY700™ with TASK™</b> .....	<b>1</b>
1.1 Installation and Usage of R+m.PLAY700 .....	1
1.1.1 File & Folder Management Differences .....	1
1.1.2 Settings for PLAY700 App .....	4
1.1.3 Tools available for a PLAY700 Project .....	5
1.2 Basic Usage of TASK with R+m.PLAY700 .....	7
1.2.1 Two ways to access SMART DEVICE commands .....	7
1.2.2 Organization of Display/Touch Zones on Mobile Device.....	9
1.3 Touch Areas and Shapes Display.....	15
1.4 Text-to-Speech and Music Play .....	16
1.5 Remote Control using Touch Areas and Sound Effects.....	19
1.6 Voice Control.....	26
1.7 Bull Fight using NIR and Color Sensors with Audio Files.....	33
1.8 Camera Functions .....	37
1.8.1 Picture and Video Capture .....	38
1.8.2 Color Dowel Alert.....	46
1.9 Dual CM-150 Programming via Bluetooth.....	54
1.10 Use of Sample Codes on Mobile Devices.....	60
1.11 References.....	62
<b>Chapter 2: Using Edbot® Dream Pro</b> .....	<b>64</b>
2.1 Edbot's Hardware and Software Installation Requirements .....	65

2.2 SCRATCH 2 Project File Conversion.....	66
2.3 SCRATCH 2 Blocks Provided with Edbot Software .....	68
2.3.1 <i>MOTOR &amp; SERVO Blocks</i> .....	70
2.3.2 <i>LED &amp; BUZZER Blocks</i> .....	71
2.3.3 <i>SENSOR Blocks</i> .....	72
2.3.4 <i>SPEECH Blocks</i> .....	73
2.3.5 <i>GENERAL Blocks</i> .....	75
2.4 Using SCRATCH 2 with Edbot Dream Pro .....	75
2.4.1 <i>Sensor Throughput Performance</i> .....	75
2.4.2 <i>Motor Control using Single-Actuator (SA) Blocks</i> .....	77
2.4.3 <i>Motor Control using Multiple-Actuators (MA) Blocks</i> .....	80
2.4.4 <i>Variable Speed Motor Control with MA Blocks</i> .....	81
2.4.5 <i>Avoider (R+SCRATCH vs. Edbot)</i> .....	82
2.4.6 <i>Yin-Yang Track Follower</i> .....	89
2.4.7 <i>Zeeb-Zob Dowel Search Game</i> .....	100
2.4.8 <i>Mixed Multiple-Robots Control with Edbot</i> .....	106
2.4.9 <i>Using Servo Motor SM-10 in Video Game</i> .....	107
2.5 Using SCRATCH 3 with Edbot Dream Pro .....	118
2.6 Using PYTHON with Edbot Dream Pro .....	118
2.6.1 <i>Sensors Throughput Applications</i> .....	119
2.6.2 <i>Avoider-Follower Applications</i> .....	126
2.6.3 <i>Yin-Yang Track Follower</i> .....	133
2.6.4 <i>Dowel Search Game using Threads &amp; Events</i> .....	135
2.6.5 <i>Using USB Camera with OpenCV &amp; NumPy</i> .....	144
2.7 References .....	162
